Fill up the Challan related details like Payment against as Return, Payment Type, Tax Type, Tax Period and Payment Head-Wise amount details and Purpose as Admitted Tax

If interest is there, select purpose as Interest and amount which is auto calculated and click on Add button.

Choose the option of Payment – Net Banking or Payment Gateway and select the bank name from list of Banks in case of Net Banking.

In case of Net banking, on submitting the details, request goes to the bank's Portal and all details will be passed to the bank.

Taxpayer has to complete the e-Transaction using bank's credentials.

The receipt/e-Challan for this payment are generated electronically upon successful completion of transaction on bank's portal and status updated in the Department Portal.

Bank needs to generate a daily scroll of all payments carried out successfully at its site and upload on RBI/Treasury account as well as on the Department Portal to perform reconciliation process.

Note: As applicable from 2nd July, 2014, Interest calculation will be 3% for the first three months of delay from the Due date and after that 5% interest rate will be charged. The calculation is (Amount\*Tax Rate in percentage\*no of days delay from due date)/ 30
